OUR SOLUTIONS

QUALITY

In order to provide the highest product satisfaction for our customers, we do business with leader firms in the market for domestic products, we also work with countries which has the best glass production and add value to our country.

HYGIENE

Glass does not contain any harmful substances when it is manufactured correctly. In order to ensure the health of consumers, we store and ship the glass packaging which is produced with the right methodologies under maximum hygienic conditions.

Being aware of the importance of glass, which is a source of health and comfort, in human consumption, Arı Pharmaceutical Medical has increased its precautions and measures in the 2020 pandemic process and has raised the hygiene standards to the highest level.

SHIPMENT

Our customers can supply their products at any time from our 3,000m² facility. On the other hand, we also have door-to-door delivery solutions with our own vehicle fleet or by using cargo and logistics companies in order to maintain our high service standards and save time for our customers.

The fastest method will be chosen for you according to the order, content and shipment status, and you will experience the convenience of receiving your products in the fastest and safest way.

AFS

We are currently in time when service is as valuable as the product. We are always with our customers from the promotion process to the order, shipment and after-service.
